

I Have a Dream

Wayne Green and Brian Potter
(Additional words/music by Greg Amerind)

I have a dream
Of how the world should be,
And I'll fight from today to make it better.
For I know that I believe in you,
And my dream is your dream, too.

I have a dream
That peace begins with me,
I will stand up today, it's now or never.
Time will show in everything I do
That my dream is your dream, too

Be a candle in the darkness,
For the people only seek the light.
Keep on burning the eternal flame,
It's a torch of hope, a beacon in the night.

I have a dream.
Come give your hand to me,
Till the clouds roll away let's fight together.
You and I will see the sun break through,
If my dream is your dream, too.

(Instrumental break)
Keep on burning the eternal flame,
It's a torch of hope, a beacon in the night.

I have a dream
That we will overcome,
And the fear that we hold will fade forever
We will show the world a brand new day,
And our dream will lead the way.
